November 2019

- Cisco employee engagement program

Life at Sandesh

Life at Sandesh has been very busy the last few months. We were all working hard to prepare for Diwali. A big thank you goes out to all of those who have volunteered, held and purchased Sandesh products for the Diwali season. It is such a special time of year for celebrating and appreciating our work.

We are very fortunate to have two volunteers from Germany who will be with us at Sandesh until January 2020. Brother Mani Karott is also an important part of our team as he spends time once a week to counsel parents and members.

Sandesh is very blessed to have many friends who support and follow us. Harman Charitable Trust has recently donated 13 Lakh for our Early Education program. CIF has also been generous by donating special chairs and appliances. We have much gratitude and appreciation for those who give their time and financial support to help us continue our journey.
